

# Sightseeing spots in Helsinki, Finland

August, 2019

Hi, everyone. I'm here in Finland. You can see huge building behind me. What's this? Can you guess?

- A. ship
- B. school
- C. chapel

The answer is C. It's Kamppi chapel. This chapel is made of \*fir tree. You have to be very quiet inside this chapel. You feel very relaxed here in this peaceful chapel.

\*fir tree=もみの木

I visited another popular praying spot. This is Temppeliaukion-cathedral.→ This cathedral is made of rock. It is called "Rock Church". It has good sound systems so this cathedral is used as a concert hall, too. I love it!
