

Hello, kids in Scandinavia

Summer 2019

Picture1

I visited a school in Denmark and a kindergarten in Finland. It's very different from one in Japan. Look at the picture 1. This is kindergarten in forest. You don't see any buildings. Children spend time outside all day even if it's rainy or snowy. I think that kids will grow up strongly in great nature.

After taking a nap.

I want to play with them! Let's go!

I visited a school. I learned about schools and education in Denmark.→
