

# I'm in Las Vegas, the States July, 2018

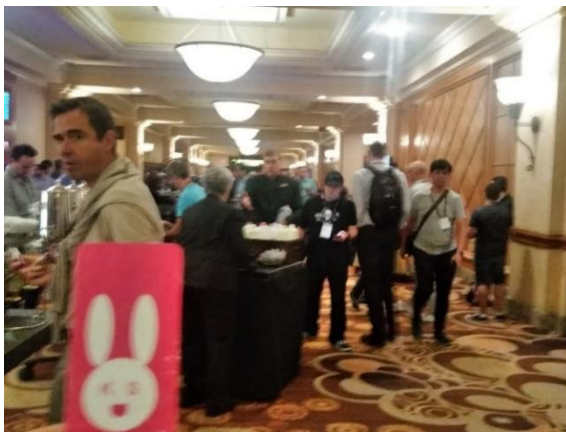

Welcome to a new country, Sakura! Sakura is in Las Vegas now. It's in Nevada, the States. The name of the city "Las Vegas" is from the name of a woman "Vega" which means "fertile". Las Vegas is famous for Casino. But she can't enjoy casino because Sakura is a junior high school student.

I have just arrived in Las Vegas.

It was hard for me to join the conference in English.

I want to study English harder during my summer vacation!

↑ Where is Sakura-chan? Can you find me??

What did I have for dinner?
